Administrator, OCD

DATE : 31 July 2016

Source: PAGASA-DOST

I. SITUATION OVERVIEW:

- **CARINA HAS MAINTAINED ITS STRENGTH WHILE TRAVERSING NORTHERN CAGAYAN.**
- Estimated rainfall amount is from moderate to heavy within the 500 km diameter of the Severe Tropical Storm.
- Fisher folk are alerted against rough to very rough seas over the Northern Eastern and Southern seaboard of Luzon.
- Areas under TCWS # 1 and #2, CALABARZON, MIMAROPA and the rest of Central Luzon are alerted against moderate to heavy rains which may trigger flash floods and landslides.
- **STS** "Carina" is expected to exit the North western part of Cagayan tonight.
- At **7:00 PM** today, the center of severe tropical Storm "Carina" was estimated based on all available data **20km Northeast of Aparri, Cagayan (18.5°N, 121.7°E).**
- **STS** "Carina" has maximum sustained winds of up to 95kph near the center and gustiness of up to 120kph.
- Forecast to move **Northwest at 20kph.**
- The Typhoon is expected to be at **495 km West Southwest of Itbayat, Batanes** (Outside PAR) by tomorrow afternoon. By Tuesday afternoon, it is

expected to be at **1,035 km West Northwest of Itbayat, Batanes** (Outside PAR).

- The public and disaster risk reduction and management councils concerned are advised to take appropriate actions and watch for the next weather bulletin to be issued at **11PM today**.

II. ACTIONS TAKEN

- NDRRMC Operations Center disseminated **Severe Weather Bulletin No. 19 for Tropical Storm "Carina"** to all OCD Regional Offices through SMS and facsimile and uploaded on the NDRRMC website for further dissemination to their respective local DRRMCs from the provincial down to the municipal levels.
 - Directed RDRRMCs concerned through the OCD Regional Centers to undertake precautionary measures in their areas of responsibility (AOR) and subsequently advised local DRRMCs to initiate pre-emptive evacuation of families in low-lying areas and mountainous areas if situations warrants.
-
