DISASTER RESPONSE PILLAR

Surigao City Earthquake SITUATION REPORT NO. 4

13 February 2017 as 4:00 AM

HIGHLIGHTS OF DISASTER RESPONSE ACTIONS

- Third Response Cluster Meeting at 0900H 12 February 2017
- Emergency Observation Report : At 10:03 PM on 10 February 2017, Friday, a strong earthquake of magnitude 6.7 shook the island of Mindanao. The epicenter is located 16 km offshore northwest of Surigao City, Surigao Strait at a depth of 10 km. The earthquake was generated by the movement of Surigao segment of the Philippine Fault. Small-magnitude earthquakes followed afterwards, and as of 4:00 PM of 11 February 2017, 101 aftershocks have been recorded by the PHIVOLCS seismic monitoring network.
- Consolidated response reports for situational awareness in a on-line mapping platform (<https://maps.dswd.gov.ph/disaster-response-situation-map>)
- Activation of Response Cluster Operations Center on 1700H 11 February 2017
- Convened the cluster members for a briefing on their respective emergency response actions
- Continuous monitoring of the effects of the earthquake in Surigao City in Region CARAGA in coordination with RDRRMC member agencies of Region CARAGA on the developments and possible needs for disaster response action
